

THE HOM BIOGAS TOILET

THE ULTIMATE SOLUTION FOR OFF-GRID LIVING

HOME BIOGAS PRESENTS THE ULTIMATE BIO TOILET

HomeBiogas created an elegant toilet solution to treat human waste for a modern, off-grid home. The HomeBiogas bio-toilet directs human waste straight into the biogas digester, turning the organic matter into biogas you can use as cooking gas. **This elegant solution, without the hassles involved with compost toilets. Now you can help significantly decrease your water bill, your water footprint and overall environmental impact!**
